

The next clear step.

When something goes wrong in Japan, Moshi Help helps you understand what to do, who to approach, and what to say - without the panic.

Moshi Help Know what to do. Know what to say.

Travelling should be exciting - not stressful.

Imagine you are travelling in Japan.

SUDDENLY...

01 Your locker will not open.

02 Your train ticket has a problem.

03 Your hotel cannot find your reservation.

04 You lose something at a station.

THE REAL BARRIER

Who should I ask?

What should I do first?

How do I explain this in Japanese?

Language can make an unfamiliar problem feel overwhelming.

Travellers do not just need translation.

They need confidence.

From uncertainty to a clear next step.

Translation tells you what to say. Moshi Help helps you move forward.

Generic translator

- Gives the traveller a sentence
- Leaves them to interpret the situation
- Leaves the next action unclear

VERSUS

Moshi Help

- Turns the context into an ordered plan
- Points to the right official helper
- Prepares a message staff can act on
- Continues guiding the conversation

Guidance first. **Translation second.**

A hotel problem should not become a crisis.

- 2 The traveller knows who to approach.
- 3 The traveller prepares the room and issue details.
- 4 The traveller shows a clear message.
